

IMPACT BRIEF

CLIENT:

Lawson Mechanical Contractors

Sacramento, CA

DESCRIPTION:

Lawson is a full service mechanical contractor with three offices serving California and Nevada. The company works with commercial and industrial customers, primarily in the healthcare, government and education markets. Their services include HVAC, plumbing, industrial and process piping, industrial metal fabrication, design and pre-construction. The company houses a 56,000 square foot pipe and duct manufacturing facility that provides cost-effective custom fabrication for customers.

PRINCIPAL/SITE ADDRESS:

6090 South Watt Avenue
Sacramento, CA 95829

CLIENT NEEDS:

The client needed a turnkey mobile solution to help office and field employees manage a large volume of paperwork generated by complex projects involving multiple team members. They wanted to eliminate errors and reduce the costs associated with lost and incorrectly filled out paperwork, as well as the transportation and processing of paperwork.

SOLUTION & IMPACTS:

iBusiness Technologies deployed MobiliForms on 10 iPads with customized forms that include a daily job journal capturing subcontractor information, equipment used, job specs and signatures. The MobiliForms also include a detailed equipment survey and a multipage work order to track customer information, job descriptions, materials and labor hours. MobiliForms also capture site photos and sound clips making it easy for field team members to accurately record and troubleshoot problems in the field. Once completed, MobiliForms are saved to the cloud for instant and easy retrieval by the home office staff. Since MobiliForms appear exactly like the company's original paper forms, the rollout was quick and easy. The client has eliminated lost paperwork, increased billable hours and accelerated cash flow.

SOLUTION SUMMARY:

PRODUCT & SERVICE MIX:
MobiliForms®
iPads
iPhones
